## Correction to: Metallurgical and Materials Transactions B DOI 10.1007/s11663-016-0771-1

IN Table III, the correct value of first-order interaction parameter of Cr on S should be  $-0.0105$ , rather than  $0.0105$ . It should be stressed that the thermodynamic calculation associated with this parameter was performed using  $e_S^{\text{Cr}} = -0.0105$  in the published article. Thus, all calculated results associated with this parameter are correct in this article.
