Erratum: Dennis M. Snow, *Spanning homogeneous vector bundles*, Commentarii Math. Helv. *64*, (1989), 395–400.

Professors H. Andersen and P. Polo, Matematisk Institut, Aarhus Universitet, have pointed out to me that part (2) of Lemma 2 in the above paper is false. Consequently, in Theorem 2 and its Corollary the condition that the α-indices of E be non-negative is necessary but not sufficient for the associated vector bundle to be spanned by global sections.
