Volume I

Section I. Fundamental Concepts and Theories

This section serves as the foundation for this exhaustive reference tool by addressing crucial theories essential to the understanding of strategic information systems. Chapters found within these pages provide an excellent framework in which to position strategic information systems within the field of information science and technology. Individual contributions provide overviews of strategic intelligence, strategic decision making, and decision support systems, while also exploring critical stumbling blocks of this field. Within this introductory section, the reader can learn and choose from a compendium of expert research on the elemental theories underscoring the research and application of strategic information systems.

- Chapter 1.1. The Nature of Strategic Intelligence, Current Practice and Solutions 1
Mark Xu, University of Portsmouth, UK
Roland Kaye, University of East Anglia, UK
- Chapter 1.2. Strategic Alignment Between Business and Information Technology 20
Fernando José Barbin Laurindo, University of São Paulo, Brazil
Marly Monteiro de Carvalho, University of São Paulo, Brazil
Tamio Shimizu, University of São Paulo, Brazil
- Chapter 1.3. The Interplay of Strategic Management and Information Technology 29
Zaiyong Tang, Louisiana Tech University, USA
Bruce Walters, Louisiana Tech University, USA
- Chapter 1.4. Enterprise Systems Strategic Alignment and Business Value 42
Euripidis Loukis, University of the Aegean, Greece
Ioakim Sapounas, University of the Aegean, Greece
Konstantinos Aivalis, ICAP, Greece

Chapter 1.5. Behavioral Factors and Information Technology Infrastructure Considerations in Strategic Alliance Development	59
<i>Purnendu Mandal, Lamar University, USA</i>	
Chapter 1.6. Developing and Analyzing Core Competencies for Alignment with Strategy.....	71
<i>Keith Sawyer, Alpha Omega International, UK</i>	
<i>John Gammack, Griffith University, Australia</i>	
Chapter 1.7. Strategic Alliances of Information Technology Among Channel Members	84
<i>H. Y. Sonya Hsu, Southern Illinois University, USA</i>	
<i>Stephen C. Shih, Southern Illinois University, USA</i>	
Chapter 1.8. Strategic Positioning and Resource-Based Thinking: Cutting Through the Haze of Punditry to Understand Factors Behind Sustainable, Successful Internet Businesses....	102
<i>John Gallagher, Boston College, USA</i>	
Chapter 1.9. Decision Support Systems.....	114
<i>John Wang, Montclair State University, USA</i>	
<i>David J. Radosevich, Montclair State University, USA</i>	
Chapter 1.10. Decision Support Systems and Decision-Making Processes	122
<i>Udo Richard Averweg, eThekweni Municipality and University of KwaZulu-Natal, South Africa</i>	
Chapter 1.11. Evaluation of Decision-Making Support Systems	131
<i>Gloria E. Phillips-Wren, Loyola College in Maryland, USA</i>	
<i>Manuel Mora, Autonomous University of Aguascalientes, Mexico</i>	
<i>Guisseppe Forgionne, University of Maryland, Baltimore County, USA</i>	
Chapter 1.12. Interactive, Flexible, and Adaptable Decision Support Systems	141
<i>John Wang, Montclair State University, USA</i>	
<i>James Yao, Montclair State University, USA</i>	
<i>Jeffrey Hsu, Fairleigh Dickinson University, USA</i>	
Chapter 1.13. The Evaluation of Decision-Making Support Systems' Functionality.....	149
<i>Giusseppe Forgionne, University of Maryland, Baltimore County, USA</i>	
<i>Stephen Russell, University of Maryland, Baltimore County, USA</i>	
Chapter 1.14. Computer-Supported Collaborative Work and Learning: A Meta-Analytic Examination of Key Moderators in Experimental GSS Research	161
<i>John Lim, National University of Singapore, Singapore</i>	
<i>Yin Ping Yang, National University of Singapore, Singapore</i>	
<i>Yingqin Zhong, National University of Singapore, Singapore</i>	

Chapter 1.15. Supply Chain Information Systems and Decision Support.....	194
<i>Liam Doyle, Waterford Institute of Technology, Ireland</i>	
Chapter 1.16. Strategic Decision Making in Global Supply Networks	204
<i>Ozlem Arisoy, University of Pittsburgh, USA</i>	
<i>Bopaya Bidanda, University of Pittsburgh, USA</i>	
Chapter 1.17. Leveraging Supply Chain Management in the Digital Economy	213
<i>Mahesh S. Raisinghani, TWU School of Management, USA</i>	
Chapter 1.18. A Relative Comparison of Leading Supply Chain Management Software Packages	220
<i>Zhongxian Wang, Montclair State University, USA</i>	
<i>Ruilian Yan, Indiana University Northwest, USA</i>	
<i>Kimberly Hollister, Montclair State University, USA</i>	
<i>Ruben Xing, Montclair State University, USA</i>	
Chapter 1.19. Negotiation, Trust, and Experience Management in E-Supply Chains.....	236
<i>Gavin Finnie, Bond University, Australia</i>	
<i>Zhaohao Sun, Heibei Normal University, China</i>	
Chapter 1.20. Using SA for SAM Applications and Design: A Study of the Supply Chain Management Process.....	258
<i>Mahesh Sarma, Miami University, USA</i>	
<i>David C. Yen, Miami University, USA</i>	
Chapter 1.21. Supply Chain Risk Management: Literature Review and Future Research.....	280
<i>Iwan Vanany, Sepuluh Nopember Institute of Technology (ITS), Indonesia</i>	
<i>Suhaiza Zailani, Universiti Sains, Malaysia</i>	
<i>Nyoman Pujawan, Sepuluh Nopember Institute of Technology (ITS), Indonesia</i>	
Chapter 1.22. Implementing Supply Chain Management in the New Era: A Replenishment Framework for the Supply Chain Operation Reference Model	298
<i>William Y. C. Wang, University of South Australia, Australia</i>	
<i>Michael S. H. Heng, Universitas 21 Global, Singapore</i>	
<i>Patrick Y. K. Chau, The University of Hong Kong, Hong Kong</i>	
Chapter 1.23. Information Systems, Software-Engineering, and Systems Thinking: Challenges and Opportunities	315
<i>Doncho Petkov, Eastern Connecticut State University, USA</i>	
<i>Denis Edgar-Nevill, Canterbury Christ Church University, UK</i>	
<i>Raymond Madachy, University of Southern California, USA</i>	
<i>Rory O'Connor, Dublin City University, Ireland</i>	

Chapter 1.24. Software Engineering and the Systems Approach: A Conversation with Barry Boehm.....	333
<i>Jo Ann Lane, University of Southern California Center for Systems and Software Engineering, USA</i>	
<i>Doncho Petkov, Eastern Connecticut State University, USA</i>	
<i>Manuel Mora, Autonomous University of Aguascalientes, Mexico</i>	
Chapter 1.25. Information and Knowledge Perspectives in Systems Engineering and Management for Innovation and Productivity Through Enterprise Resource Planning	338
<i>Stephen V. Stephenson, Dell Computer Corporation, USA</i>	
<i>Andrew P. Sage, George Mason University, USA</i>	
Chapter 1.26. The Role of Systems Engineering in the Development of Information Systems.....	369
<i>Miroљjub Kljajić, University of Maribor, Slovenia</i>	
<i>John V. Farr, Stevens Institute of Technology, USA</i>	
Chapter 1.27. Enterprise Resource Planning Systems in a Global Environment	382
<i>Paul Hawking, Victoria University, Australia</i>	
Chapter 1.28. The Integrated Enterprise Life Cycle: Enterprise Architecture, Investment Management, and System Development.....	397
<i>Frank J. Armour, Armour IT LLC, USA</i>	
<i>Chris Emery, U.S. Architect of Capitol, USA</i>	
<i>Jonathan Houk, U.S. Architect of Capitol, USA</i>	
<i>Stephen H. Kaisler, SET Associates, USA</i>	
<i>John S. Kirk, U.S. National Science Foundation, USA</i>	

Section II. Development and Design Methodologies

This section provides in-depth coverage of conceptual architectures, frameworks and methodologies related to the design and implementation of strategic information systems. Throughout these contributions, research fundamentals in the discipline are presented and discussed. From broad examinations to specific discussions on particular frameworks and infrastructures, the research found within this section spans the discipline while also offering detailed, specific discussions. Basic designs, as well as abstract developments, are explained within these chapters, and frameworks for designing successful management information systems, data warehouses, and decision support systems are discussed.

Chapter 2.1. Strategic Technology Engineering Planning.....	414
<i>Tony C. Shan, IBM, USA</i>	
<i>Winnie W. Hua, CTS Inc., USA</i>	
Chapter 2.2. A Technology-Focused Framework for Integrating Knowledge Management into Strategic Innovation Management.....	435
<i>Marc Henselewski, Deloitte Consulting GmbH, Germany</i>	
<i>Stefan Smolnik, European Business School, Germany</i>	
<i>Gerold Riempp, European Business School, Germany</i>	

Chapter 2.3. A Strategic Framework for City Marketing: The SSRM Approach	458
<i>Barry Mishra, University of California, USA</i>	
<i>Erik Rolland, University of California, USA</i>	
Chapter 2.4. Dynamics in IS Development: A Multi-Method Experiment to Measure the Effects of Disruptions during the Development Process	471
<i>Peter Otto, Union Graduate College, USA</i>	
<i>Salvatore Belardo, University of Albany, USA</i>	
Chapter 2.5. Design Science: A Case Study in Information Systems Re-Engineering.....	490
<i>Raul Valverde, Concordia University, Canada</i>	
<i>Mark Toleman, University of Southern Queensland, Australia</i>	
<i>Aileen Cater-Steel, University of Southern Queensland, Australia</i>	
Chapter 2.6. Improving IT-Enabled Sense and Respond Capabilities: An Application of Business Activity Monitoring at Southern International Airlines.....	504
<i>Richard Welke, Georgia State University, USA</i>	
<i>Gabriel Cavalheiro, Ernst & Young, NL</i>	
<i>Ajantha Dahanayake, Georgia College & State University, USA</i>	
Chapter 2.7. A Model for IT Service Strategy	520
<i>Neil McBride, De Montfort University, UK</i>	
Chapter 2.8. Perspectives of IT-Service Quality Management: A Concept for Life Cycle Based Quality Management of IT-Services	534
<i>Claus-Peter Praeg, University of Stuttgart, Germany</i>	
<i>Dieter Spath, University of Stuttgart, Germany</i>	
Chapter 2.9. Design and Development of a Quality Management Information System	561
<i>M. Sakthivel, Government College of Technology, Coimbatore, India</i>	
<i>S. R. Devadasan, PSG College of Technology, Coimbatore, India</i>	
<i>S. Ragu Raman, R.V.S. College of Engineering & Technology, Dindugul, India</i>	
<i>S. Sriram, Arulmigu Kalasalingam College of Engineering, Krishnankovil, India</i>	
Chapter 2.10. Design and Analysis of Decision Support Systems	579
<i>John Wang, Montclair State University, USA</i>	
<i>James Yao, Montclair State University, USA</i>	
<i>Qiyang Chen, Montclair State University, USA</i>	
<i>Ruben Xing, Montclair State University, USA</i>	
Chapter 2.11. Decision Making and Support Tools for Design of Machining Systems	591
<i>A. Dolgui, Ecole Nationale Supérieure des Mines de Saint-Etienne, France</i>	
<i>O. Guschinskaya, Ecole Nationale Supérieure des Mines de Saint-Etienne, France</i>	
<i>N. Guschinsky, United Institute of Informatics Problems, Belarus</i>	
<i>G. Levin, United Institute of Informatics Problems, Belarus</i>	

Chapter 2.12. Context in Decision Support Systems Development	604
<i>Alexandre Gachet, University of Hawaii at Manoa, USA</i>	
<i>Ralph Sprague, University of Hawaii at Manoa, USA</i>	
Chapter 2.13. Flexible Spatial Decision-Making and Support: Processes and Systems	614
<i>Shan Gao, University of Auckland, New Zealand</i>	
<i>David Sundaram, University of Auckland, New Zealand</i>	
Chapter 2.14. Development of a Web-Based Intelligent Spatial Decision Support System (WEBISDSS): A Case Study with Snow Removal Operations.....	637
<i>Ramanathan Sugumaran, University of Northern Iowa, USA</i>	
<i>Shriram Ilavajhala, University of Maryland, USA</i>	
<i>Vijayan Sugumaran, Oakland University, USA</i>	
Chapter 2.15. Designing Clinical Decision Support Systems in Health Care: A Systemic View.....	652
<i>Wullianallur Raghupathi, Fordham University, USA</i>	

Volume II

Chapter 2.16. A Framework for a Scenario Driven Decision Support Systems Generator	662
<i>M. Daud Ahmed, Manukau Institute of Technology, New Zealand</i>	
<i>David Sundaram, University of Auckland, New Zealand</i>	
Chapter 2.17. An Approach of Decision-Making Support Based on Collaborative Agents for Unexpected Rush Orders Management	680
<i>El Habib Nfaoui, University of Lyon France, & University of Sidi Med Ben AbdEllah, Morocco</i>	
<i>Omar El Beqqali, University of Sidi Med Ben AbdEllah, Morocco</i>	
<i>Yacine Ouzrout, University of Lyon, France</i>	
<i>Abdelaziz Bouras, University of Lyon, France</i>	
Chapter 2.18. Effective DMSS Guidance for Financial Investing.....	699
<i>Guisseppe A. Forgionne, University of Maryland, Baltimore County, USA</i>	
<i>Roy Rada, University of Maryland, Baltimore County, USA</i>	
Chapter 2.19. Exploring a UML Profile Approach to Modeling Web Services in Healthcare	714
<i>Wullianallur Raghupathi, Fordham University, USA</i>	
<i>Wei Gao, Fordham University, USA</i>	
Chapter 2.20. Data Warehouse Design to Support Customer Relationship Management Analysis ...	731
<i>Colleen Cunningham, Drexel University, USA</i>	
<i>Il-Yeol Song, Drexel University, USA</i>	
<i>Peter P. Chen, Louisiana State University, USA</i>	

Chapter 2.21. Developing a Global CRM Strategy	753
<i>Michael Shumanov, Monash University, Australia</i>	
<i>Michael Ewing, Monash University, Australia</i>	
Chapter 2.22. Building Complex Adaptive Systems: On Engineering Self-Organizing Multi-Agent Systems.....	767
<i>Jan Sudeikat, Hamburg University of Applied Sciences, Germany</i>	
<i>Wolfgang Renz, Hamburg University of Applied Sciences, Germany</i>	
Chapter 2.23. Challenges in Developing a Knowledge Management Strategy: A Case Study of the Air Force Materiel Command	788
<i>Summer E. Bartczak, University of Central Arkansas, USA</i>	
<i>Jason M. Turner, Air Force Institute of Technology, USA</i>	
<i>Ellen C. England, ISN Software Corporation and Kaplan University, USA</i>	
Chapter 2.24. A Multi-Agent System for Optimal Supply Chain Management	794
<i>Hyung Rim Choi, Dong-A University, Korea</i>	
<i>Hyun Soo Kim, Dong-A University, Korea</i>	
<i>Yong Sung Park, Catholic University of Busan, Korea</i>	
<i>Byung Joo Park, Dong-A University, Korea</i>	
Chapter 2.25. Integration of Global Supply Chain Management with Small to Mid-Size Suppliers	818
<i>Asghar Sabbaghi, Indiana University South Bend, USA</i>	
<i>Ganesh Vaidyanathan, Indiana University South Bend, USA</i>	
Chapter 2.26. A Methodology for Developing Integrated Supply Chain Management System.....	846
<i>Yi-chen Lan, University of Western Sydney, Australia</i>	
<i>Bhuvan Unhelkar, University of Western Sydney, Australia</i>	

Section III. Tools and Technologies

This section presents extensive coverage of the technology that informs and impacts strategic information systems. These chapters provide an in-depth analysis of the use and development of innumerable devices and tools, while also providing insight into new and upcoming technologies, theories, and instruments that will soon be commonplace. Within these rigorously researched chapters, readers are presented with examples of the tools that facilitate and support the emergence and advancement of strategic information systems. In addition, the successful implementation and resulting impact of these various tools and technologies are discussed within this collection of chapters.

Chapter 3.1. Intelligent Agents in Decision Support Systems	857
<i>Gloria E. Phillips-Wren, Loyola College in Maryland, USA</i>	

Chapter 3.2. Agents and Multi-Agent Systems in Supply Chain Management: An Overview	867
<i>Pericles A. Mitkas, Aristotle University of Thessaloniki, Greece</i>	
<i>Paraskevi Nikolaidou, Aristotle University of Thessaloniki, Greece</i>	
Chapter 3.3. Application of Agent-Base Technology as Coordination and Cooperation in the Supply Chain Based E-Business.....	887
<i>Golemur Begum Huq, University of Western Sydney, Australia</i>	
<i>Robyn Lawson, University of Western Sydney, Australia</i>	
Chapter 3.4. Supporting Executive Intelligence Activities with Agent-Based Executive Information Systems	908
<i>Vincent Ong, University of Bedfordshire, UK</i>	
<i>Yanqing Duan, University of Bedfordshire, UK</i>	
<i>Brian Mathews, University of Bedfordshire, UK</i>	
Chapter 3.5. Beyond Intelligent Agents: E-Sensors for Supporting Supply Chain Collaboration and Preventing the Bullwhip Effect.....	926
<i>Walter Rodriguez, Florida Gulf Coast University, USA</i>	
<i>Janusz Zalewski, Florida Gulf Coast University, USA</i>	
<i>Elias Kirche, Florida Gulf Coast University, USA</i>	
Chapter 3.6. An Ontology-Based Intelligent System Model for Semantic Information Processing ..	938
<i>Mark Xu, University of Portsmouth, UK</i>	
<i>Vincent Ong, University of Bedfordshire, UK</i>	
<i>Yanqing Duan, University of Bedfordshire, UK</i>	
Chapter 3.7. Intelligent Design Advisor: A Knowledge-Based Information System Approach for Product Development and Design	955
<i>Quangang Yang, University of South Wales, Australia</i>	
<i>Carl Reidsema, University of South Wales, Australia</i>	
Chapter 3.8. PROMISE: Product Lifecycle Management and Information Tracking Using Smart Embedded Systems.....	970
<i>Jürgen Anke, SAP Research CEC Dresden, Germany</i>	
<i>Bernhard Wolf, SAP Research CEC Dresden, Germany</i>	
<i>Gregor Hackenbroich, SAP Research CEC Dresden, Germany</i>	
<i>Hong-Hai Do, SAP Research CEC Dresden, Germany</i>	
<i>Mario Neugebauer, SAP Research CEC Dresden, Germany</i>	
<i>Anja Klein, SAP Research CEC Dresden, Germany</i>	
Chapter 3.9. Mobile Batch Tracking: A Breakthrough in Supply Chain Management	978
<i>Walter Hürster, T-Systems International, Germany</i>	
<i>Hartmut Feuchtmüller, T-Systems International, Germany</i>	
<i>Thomas Fischer, T-Systems International, Germany</i>	

Chapter 3.10. Intelligent Supply Chain Management with Automatic Identification Technology.....	984
<i>Dong Li, University of Liverpool, UK</i>	
<i>Xiaojun Wang, University of Liverpool, UK</i>	
<i>Kinchung Liu, University of Liverpool, UK</i>	
<i>Dennis Kehoe, University of Liverpool, UK</i>	
Chapter 3.11. RFID and Wireless Personal Area Networks for Supply Chain Management.....	1006
<i>David Wright, University of Ottawa, Canada</i>	
Chapter 3.12. Integrating Mobile Technologies in Enterprise Architecture with a Focus on Global Supply Chain Management Systems	1012
<i>Bhuvan Unhelkar, University of Western Sydney, Australia</i>	
<i>Ming-Chien Wu, University of Western Sydney, Australia</i>	
<i>Abbass Ghanbary, University of Western Sydney, Australia</i>	
Chapter 3.13. Enabling the Glass Pipeline: The Infusion of Mobile Technology Applications in Supply Chain Management	1034
<i>Umar Ruhi, Wilfrid Laurier University, Canada</i>	
<i>Ofir Turel, McMaster University, Canada</i>	
Chapter 3.14. Bridging the Gap: Connecting Internet-Based Spatial Decision Support Systems to the Field-Based Personnel with Real Time Wireless Mobile GIS Applications	1050
<i>Ming-Hsiang Tsou, San Diego State University, USA</i>	
Chapter 3.15. Choosing Technologies for Handheld and Ubiquitous Decision Support.....	1067
<i>Darren Woollatt, University of South Australia, Australia</i>	
<i>Paul Koop, University of South Australia, Australia</i>	
<i>Sara Jones, University of South Australia, Australia</i>	
<i>Jim Warren, The University of Auckland, New Zealand</i>	
Chapter 3.16. Mobile Technologies in the New Zealand Real-Estate Industry	1077
<i>Eusebio Scornavacca, Victoria University of Wellington, New Zealand</i>	
<i>Federico Herrera, Victoria University of Wellington, New Zealand</i>	
Chapter 3.17. Group Support Systems as Tools for HR Decision Making.....	1087
<i>James Yao, Montclair State University, USA</i>	
<i>John Wang, Montclair State University, USA</i>	
Chapter 3.18. A Knowledge Integration Approach for Organizational Decision Support.....	1096
<i>Kee-Young Kwahk, Kookmin University, Korea</i>	
<i>Hee-Woong Kim, National University of Singapore, Singapore</i>	
<i>Hock Chuan Chan, National University of Singapore, Singapore</i>	

Chapter 3.19. System Characteristics, Perceived Benefits, Individual Differences and Use Intentions: A Survey of Decision Support Tools of ERP Systems.....	1115
<i>Emad M. Kamhawi, Zagazig University, Egypt</i>	
Chapter 3.20. Supply Chain Management and Portal Technology	1134
<i>Scott Paquette, University of Toronto, Canada</i>	
Chapter 3.21. CRM Practices and Resources for the Development of Customer-Focused Multinational Organizations.....	1142
<i>Luciano C. Batista, University of Exeter, UK</i>	
Chapter 3.22. Capacity for Engineering Systems Thinking (CEST): Literature Review, Principles for Assessing and the Reliability and Validity of an Assessing Tool	1171
<i>Moti Frank, Holon Institute of Technology, Israel</i>	

Section IV. Utilization and Application

This section introduces and discusses the utilization and application of strategic information systems. These particular selections highlight, among other topics, optimizing the relationship between business and information technology, applications of decision making and support systems, and the ways in which strategic intelligence has been applied in society. Contributions included in this section provide excellent coverage of today's strategic environment and insight into how strategic information systems impact the fabric of our present-day global village.

Chapter 4.1. I-Fit: Optimizing the Fit between Business and IT	1185
<i>Alea Fairchild, Tilburg University, The Netherlands</i>	
<i>Martin Smits, Tilburg University, The Netherlands</i>	
<i>Piet Ribbers, Tilburg University, The Netherlands</i>	
<i>Erik van Geel, KZA BV, The Netherlands</i>	
<i>Geert Snijder, KZA BV, The Netherlands</i>	
Chapter 4.2. Stability and Creativity as Contradicting Values in Information Management	1203
<i>Timo Leino, Turku School of Economics, Finland</i>	
Chapter 4.3. Strategic Management of International Subcontracting: A Transaction Cost Perspective	1219
<i>Yue Wang, University of New South Wales, Australia</i>	
Chapter 4.4. EBBSC: A Balanced Scorecard-Based Framework for Strategic E-Business Management.....	1230
<i>Fen Wang, University of Maryland, Baltimore County, USA</i>	
<i>Guisseppi Forgionne, University of Maryland, Baltimore County, USA</i>	

Chapter 4.5. Strategic Management in City Government: Integrating Information Communication Technologies and Marketing in a Causal Model to Drive Stakeholder Satisfaction and Economic Development.....	1253
<i>Laura L. Matherly, Tarleton State University, Central Texas, USA</i>	
<i>Maureen Jouett, Tarleton State University, Central Texas, USA</i>	
Chapter 4.6. Managing Executive Information Systems for Strategic Intelligence in South Africa and Spain	1274
<i>Udo Richard Averweg, eThekweni Municipality and University of KwaZulu-Natal, South Africa</i>	
<i>José L. Roldán, University of Seville, Spain</i>	
Chapter 4.7. Using Information Technology for Strategic Growth from Single-Mission Transportation Company to Multi-Faceted Global Logistics Corporation	1297
<i>Shirley Hanshaw, Mississippi State University, USA</i>	
<i>Lemuria Carter, North Carolina Agricultural and Technical State University, USA</i>	
Chapter 4.8. Adoption and Implementation of IT Governance: Cases from Australian Higher Education	1308
<i>Jyotirmoyee Bhattacharjya, The University of Sydney, Australia</i>	
<i>Vanessa Chang, Curtin University of Technology, Australia</i>	

Volume III

Chapter 4.9. Enterprise Resource Planning (ERP) Implementations: Theory and Practice	1327
<i>Joseph R. Muscatello, Kent State University, USA</i>	
<i>Injazz J. Chen, Cleveland State University, USA</i>	
Chapter 4.10. Diffusion of Enterprise Resource Planning Systems in Taiwan: Influence Sources and the Y2K Effect	1344
<i>Hsiu-Hua Chang, National Central University and Tajen University, Taiwan</i>	
<i>Chun-Po Yin, National Sun Yat-San University, Taiwan</i>	
<i>Huey-Wen Chou, National Central University, Taiwan</i>	
Chapter 4.11. Enterprise Resource Planning (ERP): A Postimplementation Cross-Case Analysis.....	1358
<i>Joseph R. Muscatello, Kent State University, USA</i>	
<i>Diane H. Parente, Penn State Erie, USA</i>	
Chapter 4.12. Information Technology Adoption and the Role of Organizational Readiness: The Case of an Indian Bank.....	1379
<i>Monideepa Tarafdar, University of Toledo, USA</i>	
<i>Sanjiv D. Vaidya, Indian Institute of Management, India</i>	

Chapter 4.13. Building Enterprise Network Infrastructure for a Supermarket Store Chain.....	1398
<i>Beomjin Choi, California State University – Sacramento, USA</i>	
<i>Nancy Tsai, California State University – Sacramento, USA</i>	
<i>Tom Jones, University of California – Berkeley, USA</i>	
Chapter 4.14. Managing the Implementation of Business Intelligence Systems: A Critical Success Factors Framework.....	1412
<i>William Yeoh, University of South Australia, Australia</i>	
<i>Andy Koronios, University of South Australia, Australia</i>	
<i>Jing Gao, University of South Australia, Australia</i>	
Chapter 4.15. Business Process Management Systems for Supporting Individual and Group Decision Making.....	1429
<i>Amit V. Deokar, Dakota State University, USA</i>	
<i>Omar F. El-Gayar, Dakota State University, USA</i>	
Chapter 4.16. An Application of Multi-Criteria Decision-Making Model for Strategic Outsourcing for Effective Supply-Chain Linkages.....	1438
<i>N. K. Kwak, Saint Louis University, USA</i>	
<i>Chang Won Lee, Jinju National University, Korea</i>	
Chapter 4.17. The Cognitive Process of Decision Making.....	1452
<i>Yingxu Wang, University of Calgary, Canada</i>	
<i>Guenther Ruhe, University of Calgary, Canada</i>	
Chapter 4.18. Performance Evaluation of Consumer Decision Support Systems.....	1465
<i>Jiyong Zhang, Ecole Polytechnique Fédérale de Lausanne (EPFL), Switzerland</i>	
<i>Pearl Pu, Ecole Polytechnique Fédérale de Lausanne (EPFL), Switzerland</i>	
Chapter 4.19. Nonparametric Decision Support Systems in Medical Diagnosis: Modeling Pulmonary Embolism.....	1483
<i>Steven Walczak, University of Colorado at Denver and Health Sciences Center, USA</i>	
<i>Bradley B. Brimhall, University of Colorado School of Medicine, USA</i>	
<i>Jerry B. Lefkowitz, University of Colorado at Denver and Health Sciences Center, USA</i>	
Chapter 4.20. Decision Making by Emergency Room Physicians and Residents: Implications for the Design of Clinical Decision Support Systems.....	1501
<i>Michael J. Hine, Carleton University, Canada</i>	
<i>Ken J. Farion, Children’s Hospital of Eastern Ontario, Canada</i>	
<i>Wojtek Michalowski, University of Ottawa, Canada</i>	
<i>Szymon Wilk, Poznan University of Technology, Poland</i>	

Chapter 4.21. Decision Support Systems for Cardiovascular Diseases Based on Data Mining and Fuzzy Modelling	1520
<i>Markos G. Tsipouras, University of Ioannina, Greece</i>	
<i>Themis P. Exarchos, University of Ioannina, Greece</i>	
<i>Dimitrios I. Fotiadis, University of Ioannina, Greece, Michaelideion Cardiology Center, Greece, & Biomedical Research Institute, Greece</i>	
<i>Aris Bechlioulis, University of Ioannina, Greece, & Michaelideion Cardiology Center, Greece</i>	
<i>Katerina K. Naka, University of Ioannina, Greece, & Michaelideion Cardiology Center, Greece</i>	
Chapter 4.22. Analysis and Intuition in Strategic Decision Making: The Case of California	1531
<i>Zita Zoltay Paprika, Corvinus University of Budapest, Hungary</i>	

Section V. Organizational and Social Implications

This section includes a wide range of research pertaining to the social and organizational impact of strategic information systems around the world. Chapters included in this section analyze organizational knowledge management, e-collaboration, and group decision support systems. The inquiries and methods presented in this section offer insight into the implications of strategic information systems at both a personal and organizational level, while also emphasizing potential areas of study within the discipline.

Chapter 5.1. Group Decision Support Systems	1543
<i>John Wang, Montclair State University, USA</i>	
<i>James Yao, Montclair State University, USA</i>	
Chapter 5.2. Cooperative Decision Support Systems	1551
<i>Pascale Zaraté, Université de Toulouse – INPT – IRIT, France</i>	
Chapter 5.3. Supporting Distributed Groups with Group Support Systems: A Study of the Effect of Group Leaders and Communication Modes on Group Performance	1559
<i>Youngjin Kim, Fordham University, USA</i>	
Chapter 5.4. Supporting Structured Group Decision Making Through System-Directed User Guidance: An Experimental Study	1574
<i>Harold J. Lagroue III, University of Louisiana - Lafayette, USA</i>	
Chapter 5.5. How Well Do E-Commerce Web Sites Support Compensatory and Non-Compensatory Decision Strategies? An Exploratory Study	1592
<i>Naveen Gudigantala, Texas Tech University, USA</i>	
<i>Jaeki Song, Texas Tech University, USA</i>	
<i>Donald R. Jones, Texas Tech University, USA</i>	

Chapter 5.6. E-Collaboration Using Group Decision Support Systems in Virtual Meetings	1608
<i>Jamie S. Switzer, Colorado State University, USA</i>	
<i>Jackie L. Hartman, Colorado State University, USA</i>	
Chapter 5.7. Open Content Distribution Management in Virtual Organizations	1615
<i>Amir Hassan, Lappeenranta University of Technology, Finland</i>	
<i>Herkko Hietanen, Lappeenranta University of Technology, Finland</i>	
Chapter 5.8. User Participation in the Quality Assurance of Requirements Specifications: An Evaluation of Traditional Models and Animated Systems Engineering Techniques	1623
<i>Heinz D. Knoell, University of Lueneburg, Germany</i>	
Chapter 5.9. The Value of Information Systems to Small and Medium-Sized Enterprises: Information and Communications Technologies as Signal and Symbol of Legitimacy and Competitiveness	1639
<i>Susan J. Winter, Portland State University, USA</i>	
<i>Connie Marie Gaglio, San Francisco State University, USA</i>	
<i>Hari K. Rajagopalan, Francis Marion University, USA</i>	
Chapter 5.10. Patterns for Organizational Modeling	1667
<i>Manuel Kolp, Université catholique de Louvain, Belgium</i>	
<i>Stéphane Faulkner, University of Namur, Belgium</i>	
Chapter 5.11. K-link+: A P2P Semantic Virtual Office for Organizational Knowledge Management	1680
<i>Carlo Mastroianni, Institute of High Performance Computing and Networking CNR-ICAR, Italy</i>	
<i>Giuseppe Pirrò, University of Calabria, Italy</i>	
<i>Domenico Talia, EXEURA S.r.l., Italy, & University of Calabria, Italy</i>	
Chapter 5.12. Organizational Culture for Knowledge Management Systems: A Study of Corporate Users	1696
<i>Andrew P. Ciganek, Jacksonville State University, USA</i>	
<i>En Mao, Nicholls State University, USA</i>	
<i>Mark Srite, University of Wisconsin-Milwaukee, USA</i>	
Chapter 5.13. Organizational Readiness Assessment for Knowledge Management	1712
<i>Kaveh Mohammadi, Islamic Azad University of Sanandaj, Iran</i>	
<i>Amir Khanlari, University of Tehran, Iran</i>	
<i>Babak Sohrabi, University of Tehran, Iran</i>	
Chapter 5.14. The Impact of Institutions on Interorganizational IT Projects in the Mexican Federal Government.....	1729
<i>Luis F. Luna-Reyes, Universidad de las Americas-Puebla, Mexico</i>	
<i>J. Ramon Gil-Garcia, Centro de Investigación y Docencia Económicas, Mexico</i>	
<i>Mireya Estrada-Marroquín, Universidad de las Americas-Puebla, Mexico</i>	

Chapter 5.15. Strategic Alliance Capability: Bridging the Individual Back into Inter-Organizational Collaboration	1745
<i>Christiane Prange, EM Lyon Business School, France</i>	
Chapter 5.16. Product Customization on the Web: An Empirical Study of Factors Impacting Choiceboard User Satisfaction	1765
<i>Pratyush Bharati, University of Massachusetts, Boston, USA</i>	
<i>Abhijit Chaudhury, Bryant University, USA</i>	
Chapter 5.17. Investigating the Impact of Customer Relationship Management Practices of E-Commerce on Online Customer's Web Site Satisfaction: A Model-Building Approach	1778
<i>Su-Fang Lee, Overseas Chinese Institute of Technology, Taiwan</i>	
<i>Wen-Jang (Kenny) Jih, Middle Tennessee State University, USA</i>	
<i>Shyh-Rong Fang, National Chung Hsing University, Taiwan</i>	
Chapter 5.18. Ethnographic Discovery of Adverse Events in Patient Online Discussions: Customer Relationship Management.....	1795
<i>Roy Rada, University of Maryland, Baltimore County, USA</i>	
Chapter 5.19. Capturing and Comprehending the Behavioral/Dynamical Interactions within an ERP Implementation	1804
<i>James R. Burns, Texas Tech University, USA</i>	
<i>Don G. Jung, MyongJi University, Korea</i>	
<i>James J. Hoffman, Texas Tech University, USA</i>	
Chapter 5.20. Enterprise Information Systems Change, Adaptation and Adoption: A Qualitative Study and Conceptualization Framework	1828
<i>Boris Jukic, Clarkson University, USA</i>	
<i>Nenad Jukic, Loyola University Chicago, USA</i>	
<i>Miguel Velasco, Loyola University Chicago, USA</i>	
Chapter 5.21. Supply Network Planning Models Using Enterprise Resource Planning Systems....	1853
<i>Sundar Srinivasan, University of Missouri-Rolla, USA</i>	
<i>Scott E. Grasman, University of Missouri-Rolla, USA</i>	
Chapter 5.22. The Strategic Implications of E-Network Integration and Transformation Paths for Synchronizing Supply Chains	1870
<i>Minjoon Jun, New Mexico State University, USA</i>	
<i>Shaohan Cai, Carleton University, Canada</i>	
<i>DaeSoo Kim, Korea University Business School, Korea</i>	

Chapter 5.15. Strategic Alliance Capability: Bridging the Individual Back into Inter-Organizational Collaboration	1745
<i>Christiane Prange, EM Lyon Business School, France</i>	
Chapter 5.16. Product Customization on the Web: An Empirical Study of Factors Impacting Choiceboard User Satisfaction	1765
<i>Pratyush Bharati, University of Massachusetts, Boston, USA</i>	
<i>Abhijit Chaudhury, Bryant University, USA</i>	
Chapter 5.17. Investigating the Impact of Customer Relationship Management Practices of E-Commerce on Online Customer's Web Site Satisfaction: A Model-Building Approach	1778
<i>Su-Fang Lee, Overseas Chinese Institute of Technology, Taiwan</i>	
<i>Wen-Jang (Kenny) Jih, Middle Tennessee State University, USA</i>	
<i>Shyh-Rong Fang, National Chung Hsing University, Taiwan</i>	
Chapter 5.18. Ethnographic Discovery of Adverse Events in Patient Online Discussions: Customer Relationship Management	1795
<i>Roy Rada, University of Maryland, Baltimore County, USA</i>	
Chapter 5.19. Capturing and Comprehending the Behavioral/Dynamical Interactions within an ERP Implementation	1804
<i>James R. Burns, Texas Tech University, USA</i>	
<i>Don G. Jung, MyongJi University, Korea</i>	
<i>James J. Hoffman, Texas Tech University, USA</i>	
Chapter 5.20. Enterprise Information Systems Change, Adaptation and Adoption: A Qualitative Study and Conceptualization Framework	1828
<i>Boris Jukic, Clarkson University, USA</i>	
<i>Nenad Jukic, Loyola University Chicago, USA</i>	
<i>Miguel Velasco, Loyola University Chicago, USA</i>	
Chapter 5.21. Supply Network Planning Models Using Enterprise Resource Planning Systems....	1853
<i>Sundar Srinivasan, University of Missouri-Rolla, USA</i>	
<i>Scott E. Grasman, University of Missouri-Rolla, USA</i>	
Chapter 5.22. The Strategic Implications of E-Network Integration and Transformation Paths for Synchronizing Supply Chains	1870
<i>Minjoon Jun, New Mexico State University, USA</i>	
<i>Shaohan Cai, Carleton University, Canada</i>	
<i>DaeSoo Kim, Korea University Business School, Korea</i>	

Chapter 5.23. The Factors Influence Suppliers Satisfaction of Green Supply Chain Management Systems in Taiwan.....	1889
<i>Hsiu-Chia Ko, National Sun Yat-Sen University, Taiwan</i>	
<i>Fan-Chuan Tseng, National Sun Yat-Sen University, Taiwan</i>	
<i>Chun-Po Yin, National Sun Yat-Sen University, Taiwan</i>	
<i>Li-Chun Huang, National Sun Yat-Sen University, Taiwan</i>	

Chapter 5.24. SHRM Portals in the 21st Century Organisation	1904
<i>Beverley Lloyd-Walker, Victoria University, Australia</i>	
<i>Jan Soutar, Victoria University, Australia</i>	

Section VI. Managerial Impact

This section presents contemporary coverage of the managerial implications of strategic information systems. Particular contributions address firm performance as it relates to IT strategy, the nature of knowledge in the IT workforce, and the effectiveness of strategic implementation. The managerial research provided in this section allows executives, practitioners, and researchers to gain a better sense of how strategic information systems can inform their practices and behavior.

Chapter 6.1. IT-Enabled Strategy: Implications for Firm Performance?.....	1915
<i>Paul L. Drnevich, Purdue University, USA</i>	

Chapter 6.2. Building the IT Workforce of the Future: The Demand for More Complex, Abstract, and Strategic Knowledge.....	1925
<i>Deborah J. Armstrong, Florida State University, USA</i>	
<i>H. James Nelson, Southern Illinois University Carbondale, USA</i>	
<i>Kay M. Nelson, Southern Illinois University Carbondale, USA</i>	
<i>V.K. Narayanan, Drexel University, USA</i>	

Chapter 6.3. IT Infrastructure Capabilities and Business Process Improvements: Association with IT Governance Characteristics.....	1942
<i>Chuck C. H. Law, Chaoyang University of Technology, Taiwan</i>	
<i>Eric W. T. Ngai, The Hong Kong Polytechnic University, China</i>	

Chapter 6.4. The Contingent Role of Innovation between IT Management Sophistication and Strategic Alignment.....	1965
<i>Leelien Ken Huang, Feng Chia University, Taichung, Taiwan</i>	

Chapter 6.5. Inter-Organizational Information Systems and Strategic Alliances: Symbiosis or Competition?	1999
<i>Sebastián Bruque-Cámara, University of Jaén, Spain</i>	
<i>José Moyano-Fuentes, University of Jaén, Spain</i>	

Volume IV

Chapter 6.6. Managing Knowledge Capabilities for Strategy Implementation Effectiveness	2012
<i>Sineenad Paisittanand, Bangkok University, Thailand</i>	
<i>L. A. Digman, University of Nebraska, USA</i>	
<i>Sang M. Lee, University of Nebraska, USA</i>	
Chapter 6.7. Empirical Investigation of Critical Success Factors for Implementing Business Intelligence Systems in Multiple Engineering Asset Management Organisations	2039
<i>William Yeoh, University of South Australia, Australia</i>	
<i>Jing Gao, University of South Australia, Australia</i>	
<i>Andy Koronios, University of South Australia, Australia</i>	
Chapter 6.8. Exploring Relationship Between Information Systems Strategic Orientation and Small Business Performance.....	2064
<i>R. Rajendran, Sri Ramakrishna Institute of Technology, Coimbatore, India</i>	
<i>K. Vivekanandan, Bharathiar University, India</i>	
Chapter 6.9. Computational Intelligence in the Financial Functions of Industrial Firms.....	2080
<i>Petros Theodorou, Athens University of Economics and Business, Greece</i>	
<i>Dimitrios Karyampas, University of York, UK</i>	
Chapter 6.10. The Impact of E-Commerce Customer Relationship Management in Business-to-Consumer E-Commerce.....	2099
<i>Pauline Ratnasingam, University of Central Missouri, USA</i>	
Chapter 6.11. Extending Relationship Marketing to Human Resources Management Using the CaRM Approach to Personnel Recruitment	2112
<i>Tobias Keim, Johann Wolfgang Goethe University, Germany</i>	
<i>Kerstin Fritsch, Johann Wolfgang Goethe University, Germany</i>	
Chapter 6.12. Approaches and Concepts to Restructuring Human Resources Management Functions.....	2120
<i>Peter M. Wald, University of Applied Sciences Dresden, Germany</i>	
<i>Rainhart Lang, Chemnitz University of Technology, Germany</i>	

Section VII. Critical Issues

This section addresses conceptual and theoretical issues related to the field of strategic information systems, which include failures and successes in system implementation. Within these chapters, the reader is presented with analysis of the most current and relevant conceptual inquires within this growing field of study. Particular chapters also address service quality in supply chain management, petri nets, and privacy and security in customer relationship management. Overall, contributions within this section ask unique, often theoretical questions related to the study of strategic information systems and, more often than not, conclude that solutions are both numerous and contradictory.

Chapter 7.1. Information System Development Failure and Complexity: A Case Study.....	2130
<i>Abou Bakar Nauman, COMSATS Institute of Information Technology, Pakistan</i>	
<i>Romana Aziz, COMSATS Institute of Information Technology, Pakistan</i>	
<i>A.F.M. Ishaq, COMSATS Institute of Information Technology, Pakistan</i>	
Chapter 7.2. Critical Insights into NHS Information Systems Deployment.....	2154
<i>Rajneesh Chowdhury, CHR Global Consulting Services, India</i>	
<i>Alan Nobbs, National Health Service, UK</i>	
Chapter 7.3. Quality Assurance View of a Management Information System	2173
<i>Juha Kettunen, Turku University of Applied Sciences, Finland</i>	
<i>Ismo Kantola, Turku University of Applied Sciences, Finland</i>	
Chapter 7.4. Information Feedback Approach for Maintaining Service Quality in Supply Chain Management.....	2181
<i>R. Manjunath, Bangalore University, India</i>	
Chapter 7.5. Supplier Capabilities and eSourcing Relationships: A Psychological Contract Perspective	2190
<i>Vanita Yadav, Management Development Institute, India</i>	
<i>Mahadeo Jaiswal, Management Development Institute, India</i>	
Chapter 7.6. A Strategic Framework for Managing Failure in JIT Supply Chains.....	2206
<i>Jaydeep Balakrishnan, University of Calgary, Canada</i>	
<i>Frances Bowen, University of Calgary, Canada</i>	
<i>Astrid L.H. Eckstein, Independent Consultant, Canada</i>	
Chapter 7.7. Towards Stable Model Bases for Causal Strategic Decision Support Systems	2223
<i>Christian Hillbrand, University of Liechtenstein, Liechtenstein</i>	
Chapter 7.8. Decision Support-Related Resource Presence and Availability Awareness for DSS in Pervasive Computing Environments	2244
<i>Stephen Russell, George Washington University, USA</i>	
<i>Guisseppi Forgionne, University of Maryland, Baltimore County, USA</i>	
<i>Victoria Yoon, University of Maryland, Baltimore County, USA</i>	
Chapter 7.9. Decision Support Systems and Representation Levels in the Decision Spine.....	2265
<i>Patrick Humphreys, London School of Economics and Political Science, UK</i>	
Chapter 7.10. Supporting Demand Supply Network Optimization with Petri Nets	2274
<i>Teemu Tynjala, Nokia Group, Finland</i>	
Chapter 7.11. Empirical Assessment of Factors Influencing Success of Enterprise Resource Planning Implementations.....	2288
<i>Fiona Fui-Hoon Nah, University of Nebraska-Lincoln, USA</i>	
<i>Zahidul Islam, Independent University, Bangladesh</i>	
<i>Mathew Tan, Agilent Technologies, Malaysia</i>	

Chapter 7.12. Federated Enterprise Resource Planning Systems	2310
<i>Nico Brehm, Carl-von-Ossietzky-Universität Oldenburg, Germany</i>	
<i>Daniel Lübke, University Hannover, Germany</i>	
<i>Jorge Marx Gómez, Carl-von-Ossietzky-Universität Oldenburg, Germany</i>	
Chapter 7.13. Integrated Product Life Cycle Management for Software: CMMI, SPICE, and ISO/IEC 20000	2325
<i>Dirk Malzahn, OrgaTech GmbH, Germany</i>	
Chapter 7.14. Customer Relationship Management (CRM) Metrics: What's the Holdup?	2345
<i>Timothy Shea, University of Massachusetts Dartmouth, USA</i>	
<i>Ahern Brown, HDR Inc., USA</i>	
<i>D. Steven White, University of Massachusetts Dartmouth, USA</i>	
<i>Catherine Curran-Kelly, University of Massachusetts Dartmouth, USA</i>	
<i>Michael Griffin, University of Massachusetts Dartmouth, USA</i>	
Chapter 7.15. Security Policies and Procedures	2352
<i>Yvette Ghormley, Saint Leo University, USA</i>	
Chapter 7.16. Privacy and Security in the Age of Electronic Customer Relationship Management	2365
<i>Nicholas C. Romano, Jr., Oklahoma State University, USA</i>	
<i>Jerry Fjermestad, New Jersey Institute of Technology, USA</i>	

Section VIII. Emerging Trends

This section highlights research potential within the field of strategic information systems while exploring uncharted areas of study for the advancement of the discipline. Chapters within this section highlight advancements in enterprise resource planning, strategic technology planning, and strategic decision making for Green IT. These contributions, which conclude this exhaustive, multi-volume set, provide emerging trends and suggestions for future research within this rapidly expanding discipline.

Chapter 8.1. Patterns for Organizational Modeling	2388
<i>Manuel Kolp, Université catholique de Louvain, Belgium</i>	
<i>Stéphane Faulkner, University of Namur, Belgium</i>	
Chapter 8.2. Enterprise Resource Planning Under Open Source Software	2410
<i>Ashley Davis, University of Georgia, USA</i>	
Chapter 8.3. The Dynamics and Rationality of Collective Behavior within a Global Information System	2431
<i>Jacek Unold, University of Economics, Wrocław, Poland</i>	
Chapter 8.4. Information Technology and Diversification: How Their Relationship Affects Firm Performance	2460
<i>Namchul Shin, Pace University, USA</i>	

Chapter 8.5. Toward an Interdisciplinary Engineering and Management of Complex IT-Intensive Organizational Systems: A Systems View	2475
<i>Manuel Mora, Universidad Autónoma de Aguascalientes, Mexico</i>	
<i>Osvei Gelman, CCADET, Universidad Nacional Autónoma de México, Mexico</i>	
<i>Moti Frank, HIT - Holon Institute of Technology, Israel</i>	
<i>David B. Paradise, Florida State University, USA</i>	
<i>Francisco Cervantes, Universidad Nacional Autónoma de México, Mexico</i>	
<i>Guisseppe A. Forgionne, University of Maryland Baltimore County, USA</i>	
 Chapter 8.6. Strategic Technology Planning for the Techno-Global Economy: Cities in the Market.....	 2496
<i>Al D. McCready, McCready Manigold Ray & Co., Inc., USA</i>	
 Chapter 8.7. Mission-Critical Group Decision-Making: Solving the Problem of Decision Preference Change in Group Decision-Making Using Markov Chain Model	 2518
<i>Huizhang Shen, Shanghai Jiaotong University, China</i>	
<i>Jidi Zhao, University of New Brunswick, Canada</i>	
<i>Wayne W. Huang, Ohio University, USA</i>	
 Chapter 8.8. Enhancing Decision Support Systems with Spatial Capabilities	 2542
<i>Marcus Costa Sampaio, Federal University of Campina Grande, Brazil</i>	
<i>Cláudio de Souza Baptista, Federal University of Campina Grande, Brazil</i>	
<i>André Gomes de Sousa, Federal University of Campina Grande, Brazil</i>	
<i>Fabiana Ferreira do Nascimento, Federal University of Campina Grande, Brazil</i>	
 Chapter 8.9. A Multi-Agent Decision Support Architecture for Knowledge Representation and Exchange	 2558
<i>Rahul Singh, University of North Carolina at Greensboro, USA</i>	
 Chapter 8.10. The Future of Supply Chain Management: Shifting from Logistics Driven to a Customer Driven Model	 2575
<i>Ketan Vanjara, Microsoft, India</i>	
 Chapter 8.11. Strategic Decisions for Green Electricity Marketing: Learning from Past Experiences.....	 2589
<i>Marta Pérez-Plaza, Universidad Pontificia Comillas, Spain</i>	
<i>Pedro Linares, Universidad Pontificia Comillas, Spain</i>	
 Chapter 8.12. Information Technology Service Management and Opportunities for Information Systems Curricula	 2606
<i>Sue Conger, University of Dallas, USA</i>	
 Chapter 8.13. System Dynamics Modeling for Strategic Management of Green Supply Chain.....	 2617
<i>Ying Su, Institute of Scientific and Technical Information of China, Beijing, P.R. China</i>	
<i>Zhanming Jin, Tsinghua University, Beijing, P.R. China</i>	
<i>Lei Yang, South China University of Technology, Panyu, Guangzhou, P.R. China</i>	

Chapter 8.14. A Mediator for Biospatial Information Systems 2650
Renato Barrera, Universidad Nacional Autónoma de México, Mexico
Abraham Alcántara, Universidad Nacional Autónoma de México, Mexico
Carlos Alegría, Universidad Nacional Autónoma de México, Mexico
Ana L. Ávila, Universidad Nacional Autónoma de México, Mexico
David Esparza, Universidad Nacional Autónoma de México, Mexico
Augusto D. Hernández, Universidad Nacional Autónoma de México, Mexico
Ivonne Rivera, Universidad Nacional Autónoma de México, Mexico

Chapter 8.15. Aligning Six Sigma and ITIL to Improve IT Service Management..... 2665
Peter C. Chan, Hewlett Packard, USA
Shauntell R. Durant, Hewlett Packard, USA
Verna Mae Gall, University of Maryland - University College, USA
Mahesh S. Raisinghani, TWU School of Management, USA
