

Further Section

Hum. Hered. 1985;35:408-409

Subject Index

ABO, and anthropometric measures 161 -, and blood pressure 161
- and Hp 198
-, and lipids 161
-, blood group A subtypes 1 Adenosine deaminase 339 Aerobic power 182 Adenylate kinase 339 Albumin variants 34 Alopecia 198 Alpha-1-antitrypsin 62 Andhra Pradesh, India 148
Atrichia 53
Bf and rheumatoid arthritis 240 Bf in England 246 Birth weight 171 Blood lactate 182
Bronchial asthma 263
C band size 379
C3 and bronchial asthma 263
and Indian childhood cirrhosis 268
and rheumatoid arthritis 240
and schizophrenia 255
in Andhra Pradesh 403
in Greece 123
in Japanese 69 C4 223
C6 30, 255
Carpal tunnel syndrome 288
Ceruloplasmin 117
Cholinesterase 123
Chromosomal heteromorphism 333
Coagulation factor XIII 101
Cornelia de Lange syndrome 265
Data base management system 296 Delta-aminolevulate dehydratase 21 Dermatoglyphic studies 271 DNA restriction polymorphism 394
EK gene 364 Esterase D 190
Fs, 292
G-6-PD deficiency 143,399 Gc groups 11, 375 Genetic counselling 73, 129
load 388 GLD and Hp 111
types in Serbia 120 Glutathione reductase deficiency 326 GPT null allele 59
Haptoglobin and ABO 198
and GLO association 111
and rheumatoid arthritis 207
and schizophrenia 65
in Et-Turks 115
types and Alzheimers disease 25 Hausa 283 Heterochromatin 379
HGPR deficiency 358 HLA antigens 306
Indian childhood cirrhosis 268

Leprosy 43
Linkage 15,39,43,288,309
Malignant melanoma 375 Mapuche Indians 306 Maximal heart rate 182 Monoclonal
gammopathy 227 Multiple endocrine neoplasia 15 Myopia 232
NADH diaphorase in Italy 7
- - in Japanese 212
Ocular refraction 232 Oral traits 314
PGM, null allele 178
- subtypes 95, 273
Phosphoglycolate dehydratase 21
Subject Index
409

Placenta alkaline phosphatase 259
glucose dehydrogenase 349
soluble aconitase 346 Plasminogen 343
Rheumatic diseases 107 Rheumatoid arthritis 207, 240, 279
Schizophrenia 11,193,223,255 Selection 218 Sickle cell anaemia 326 Sjögren's syndrome
302 Sneezing on exposure to light 113
Thalassaemia 326
Transferrin and occupational photodermatitis 89
and rheumatoid arthritis 279
and schizophrenia 65
in Eti-Turks 115
in Jordanians 341 -, silent allele 157
types Dchi 56 Twins 314
Y chromosome, repeated sequence 369
