Correction to: Supportive Care in Cancer (2019) 27:3997–4010
<https://doi.org/10.1007/s00520-019-04887-x>

The original version of this paper contains a typographical error in the units: g/day was incorrectly written as mg/day.

Specifically, on page 4005, paragraph 6:

These studies demonstrated that glutamine at a dose range of 10–30 mg/day, delivered throughout the RT-CT, may be effective to prevent OM.

it should read:

These studies demonstrated that glutamine at a dose range of 10–30 g/day, delivered throughout the RT-CT, may be effective to prevent OM.
