

THE BOOK OF EVIDENCE

PETER ACHINSTEIN

OXFORD
UNIVERSITY PRESS

2001

CONTENTS

1. *The Dean's Challenge* 3
 2. *Concepts of Evidence, or How the Electron Got Its Charge* 13
 3. *Two Major Probabilistic Theories of Evidence* 44
 4. *What's Wrong with These Probabilistic Theories of Evidence?* 69
 5. *Objective Epistemic Probability* 95
 6. *Evidence, High Probability, and Belief* 114
 7. *The Explanatory Connection* 145
 8. *Final Definitions and Realism* 168
 9. *Two Paradoxes of Evidence: Ravens and Grue* 185
 10. *Explanation versus Prediction: Which Carries More Evidential Weight?* 210
 11. *Old-Age and New-Age Holism* 231
 12. *Evidence for Molecules: Jean Perrin and Molecular Reality* 243
 13. *Who Really Discovered the Electron?* 266
- Index* 287
