

The Early Postglacial Settlement of Northern Europe

An Ecological Perspective

Edited by Paul Mellars

Senior Lecturer in Prehistory
University of Sheffield

Duckworth

Contents

Preface

List of Contributors

1. Neothermal orientations 1
Grahame Clark
2. The concept of 'ecology' in Mesolithic research 11
Stig Welinder
3. The spatial analysis of Mesolithic occupation floors: a reappraisal 27
Robert Whallon Jr.
4. Shell middens as indicators of postglacial economies: a territorial perspective 37
G.N. Bailey
5. Ecological aspects of population size and growth in late-glacial and early postglacial north-western Europe 65
Christopher Meiklejohn
6. Mesolithic settlement systems in the Netherlands 81
T. Douglas Price
7. Animal exploitation in Mesolithic Denmark 115
J.L. Bay-Petersen
8. Mesolithic economy and settlement patterns in Norway 147
Svein Indrelid
9. Prehistoric settlement in northern Sweden: a brief survey and a case study 177
Noel D. Broadbent
10. Subsistence and settlement in the north-eastern Baltic 205
Marek Zvelebil

vi *Contents*

11. Patterns of Mesolithic land-use in southern England: a geological perspective <i>Paul Mellars and S.C. Reinhardt</i>	243
12. Northern England in the eighth millennium bc: an essay <i>R.M. Jacobi</i>	295
13. The chronology and economy of the Irish Mesolithic: some working hypotheses <i>Peter C. Woodman</i>	333
14. Excavation and economic analysis of Mesolithic shell middens on the island of Oronsay (Inner Hebrides) <i>Paul Mellars</i>	371
