

Erratum

The effect of exercise intensity and duration on the oxygen deficit and excess post-exercise oxygen consumption

C. J. Gore and R. T. Withers

The Exercise Physiology Laboratory, School of Education, The Flinders University of South Australia, Bedford Park, South Australia 5042

In: 60:169-174

On page 170, left-hand column, in the section "Experimental design" point 3 should have read:

Consume a standardised pre-weighed meal before 2000 hours on the day preceding a test. Water only was drunk thereafter until a standardised pre-weighed light breakfast was consumed 3.5 h before any measurements were taken.
