Table of Contents

Abstract	i
Table of Contents	ii
Index of Figures	iii
Index of Tables	iii
1 Introduction	4
2 The role of human capital in theoretical models of economic growth	6
2.1 Exogenous growth models	6
2.1.1 Main features of the original <i>Solow</i> model with technological progress .	6
2.1.2 The human-capital augmented Solow model	6
2.2 Endogenous growth models	9
2.2.1 Growth driven by human capital accumulation.....	9
2.2.2 Human capital and technological change	12
2.3 Testable predictions generated by the models.....	15
3 Empirical evidence on the importance of human capital for growth	18
3.1 Results	18
3.1.1 Studies based on convergence equations.....	18
3.1.1.1 Ad-hoc specifications	19
3.1.1.2 Structural convergence equations.....	22
3.1.1.3 Brief summary of the evidence from studies estimating convergence equations.....	26
3.1.2 Studies estimating an aggregate production function.....	26
3.1.3 Recent studies focusing on data quality	31
3.2 Interpretation	34
3.2.1 Methodological issues	34
3.2.1.1 Measurement error.....	35
3.2.1.2 Econometric concerns	38
3.2.2 Conceptual issues	40
3.2.2.1 The adequacy of empirical human capital proxies	40
3.2.2.2 Quality of education and efficiency of resource allocation.....	45
3.2.2.3 Reverse causation	47
3.3 Assessment	49
4 Conclusion	52
Bibliography	55
