Part I General and Historical Introduction

Chaotic Growth with the Logistic Model of P.-F. Verhulst

<i>H. Pastijn</i>	3
1 P.-F. Verhulst and the Royal Military Academy in Brussels	3
2 The Exponential Growth Process	5
3 Limited Growth Models	6
4 The Logistic Growth Process	7
5 Attractors for the Discrete Logistic Model	9
6 Conclusion	10
References	10

Pierre-François Verhulst's Final Triumph

<i>J. Kint, D. Constales, A. Vanderbauwhede</i>	13
1 His Life	13
2 His Work in the Field of Population Growth	17
3 The Logistic Function After 1849	19
4 Verhulst's Principle and Chaos Theory	22
5 Logistic Fractal of Verhulst	24
6 Conclusion	26
References	27

Limits to Success. The Iron Law of Verhulst

<i>P.L. Kunsch</i>	29
1 Introduction	29
2 The Logistic Equation, a Prototype of Systems Thinking	30
3 Archetypes	34
4 Modelling a Bubble on the Stock Market	40
5 Conclusions	49
References	50

Recurrent Generation of Verhulst Chaos Maps at Any Order and Their Stabilization Diagram by Anticipative Control

D.M. Dubois 53

1 Introduction 53

2 Analytical Solution of Chaos Maps 54

3 The Verhulst Incursive Map
is the Correct Discrete Verhulst Equation..... 57

4 Incursive Control for Stabilizing Chaos Maps 59

5 Recurrent Generation of Chaos Maps at any Order 64

6 Conclusions..... 74
