

The Process of Economic Development

3rd Edition

James M. Cypher and James L. Dietz

Contents

<i>List of figures</i>	xiii
<i>List of tables</i>	xiv
<i>List of focuses</i>	xvi
<i>Preface to the third edition</i>	xviii
<i>Acknowledgements</i>	xxi

PART 1

An overview of economic development	1
1 The development imperative	3
<i>Why study economic development?</i>	3
<i>Poverty in the less-developed world</i>	6
<i>The development enigma</i>	12
<i>Recent trends in economic growth</i>	14
<i>Why development, and why now?</i>	18
<i>Economic growth and development require structural change</i>	19
<i>Barriers to development</i>	22
<i>Resources for student use and suggestions for further reading</i>	24
<i>Questions and exercises</i>	25
<i>Notes</i>	26
<i>References</i>	28
2 Measuring economic growth and development	30
<i>Introduction</i>	30
<i>The economic growth/income criterion of development</i>	31
<i>Measuring economic growth</i>	33
<i>Necessary adjustments to the GDP and GNI measures</i>	36
<i>GNI or GDP: is one income measure better than the other?</i>	46
<i>International comparisons of income: purchasing power parity (PPP) income</i>	47
<i>The indicators criterion of development: the Human Development Index</i>	50
<i>Adjustments to the HDI</i>	54

Comparing the income per capita and HDI measures 56
Economic growth and equity: goals at odds? 57
Summary and conclusions 63
Questions and exercises 63
Notes 66
References 69
Appendix 2A 69
Appendix 2B 71

3 Development in historical perspective

73

Introduction 73
The origins of economic development 75
Colonialism 76
The lasting effects of colonialism and path dependency 78
Forms of European colonialism 79
Merchant capital: from old colonialism to new colonialism 80
British rule in India: the transition from merchant capital to industrial capital 81
The functional role of colonialism 84
The colonial elite: the enduring significance of collaboration 86
De-industrialization in the colonies 87
Colonial industrialization? 89
Measuring the impact of colonialism 91
The terms of trade and comparative advantage 91
Credit and underdevelopment 93
The new imperialism: 1870–1914 95
Mature colonialism and progressive colonialism 96
British and French colonialism in West Africa: 1945–65 96
Progressive colonialism 97
Decolonization 98
Point Four Aid 98
Economic dualism 100
Summary and conclusions 102
Questions for review 103
Notes 103
References 105

PART 2

Theories of development and underdevelopment

107

4 Classical and neoclassical theories

109

Introduction 109
Adam Smith: a theory of competitive capitalism and growth 111

<i>Malthus's theory of population and economic growth</i>	114
<i>Ricardo's theories of diminishing returns and comparative advantage</i>	118
<i>Marx's analysis of capitalist development: a brief digression</i>	125
<i>Neoclassical growth models</i>	127
<i>Summary and conclusions</i>	131
<i>Questions and exercises</i>	133
<i>Notes</i>	136
<i>References</i>	139

5 Developmentalist theories of economic development 140

<i>Introduction</i>	140
<i>The theory of the big push</i>	142
<i>A theory of balanced growth</i>	145
<i>Unbalanced growth</i>	147
<i>Growth with unlimited supplies of labor</i>	151
<i>Utilizing the economic surplus</i>	157
<i>Stages of growth theory</i>	159
<i>Questions and exercises</i>	164
<i>Notes</i>	164
<i>References</i>	166

6 Heterodox theories of economic development 168

<i>Introduction</i>	168
<i>The Latin American structuralists</i>	169
<i>The institutionalists</i>	180
<i>Dependency analysis</i>	185
<i>Classical Marxism</i>	194
<i>Questions and exercises</i>	196
<i>Notes</i>	197
<i>References</i>	199

PART 3

The structural transformation 201

7 The state as a potential agent of transformation: from neoliberalism to embedded autonomy 203

<i>Introduction</i>	203
<i>Origins of the neoliberal paradigm</i>	205
<i>Government in the process of development</i>	210
<i>The neoliberalism of Deepak Lal</i>	213
<i>The new political economy</i>	216

An assessment of the neoliberal theory of the state 217
Embedded autonomy 220
Depicting state forms 231
Summary and conclusions 233
Questions and exercises 234
Notes 234
References 236

8 Endogenous growth theories and new strategies for development 239

Introduction 239
The income convergence controversy 240
Income convergence/divergence, path dependence, and poverty traps 243
Endogenous growth models 246
Measuring the impact of key inputs in endogenous growth models: growth accounting 254
Technical efficiency change 259
Conclusions 262
Questions and exercises 262
Notes 264
References 268

9 The initial structural transformation: initiating the industrialization process 271

Introduction: an industrialization imperative? 271
Structural change and economic growth 273
The Lewis dual-economy model of structural transformation: surplus labor 275
Initiating the structural transformation process: industrialization 276
Government and easy ISI 281
Infant industry tariffs: overcoming transitional inefficiencies 284
Static and dynamic welfare effects of an infant industry tariff: to do or not to do? 288
The elimination of infant industry protection: when is enough enough? 291
The importance of embedded state autonomy to successful ISI 292
Potential gains from the easy ISI stage of industrialization 295
Para-state firms and social capital 297
Measuring the success of easy ISI 298
Summary and conclusions 298
Questions and exercises 300
Notes 303
References 306

10 Strategy switching and industrial transformation	308
<i>Continuing structural change</i>	308
<i>Industrial sequencing: beyond easy ISI</i>	309
<i>Foreign exchange shortages</i>	310
<i>Easy export substitution industrialization: the optimal strategy switch after easy ISI</i>	312
<i>Difficult ISI: a sub-optimal strategy switch immediately after easy ISI</i>	317
<i>Endowments and policies: explaining strategy switches</i>	322
<i>Subsequent strategy switches</i>	325
<i>Continuing strategy switches</i>	331
<i>What can other less-developed nations learn?</i>	332
<i>Where we are headed, where we have been</i>	333
<i>Questions and exercises</i>	334
<i>Notes</i>	336
<i>References</i>	340
11 Agriculture and development	341
<i>Introduction</i>	341
<i>Inadequate infrastructural investment</i>	346
<i>Primary product mono-exporters</i>	350
<i>Peasant agriculture and small-scale cultivators</i>	355
<i>Are peasants efficient producers?</i>	358
<i>High-yield varieties, biotechnology, genetically modified food crops, and rural productivity</i>	362
<i>The developmental problems of cash crop farmers</i>	367
<i>Large landholdings and agrarian backwardness</i>	371
<i>The structuralist view</i>	373
<i>Transnational agribusiness</i>	374
<i>Government in agricultural development</i>	376
<i>Land reform</i>	379
<i>Land reform in Mexico</i>	382
<i>Korea's Saemaul Undong</i>	383
<i>Questions and exercises</i>	385
<i>Notes</i>	387
<i>References</i>	388
12 Population, education, and human capital	391
<i>Introduction</i>	391
<i>A population problem?</i>	392
<i>The natural and the actual rate of population growth</i>	394
<i>The demographic transition</i>	396

x Contents

Determinants of the crude birth rate: understanding the dynamics of population growth 400
The role of children in less-developed and developed economies 402
Human capital accumulation: augmenting initial endowments 405
Human capital accumulation and market failure: what is the role of government? 408
Population growth and human capital accumulation 413
Summary and conclusions 415
Questions and exercises 415
Notes 418
References 420

13 Technology and development

422

Introduction 422
What is technology? 423
A technological strategy of development 425
Total factor productivity and national technology 429
Technology-centered development 434
Industrial innovation: continuing technological progress 439
Industrial policies to promote an ITLC 440
Macropolicies and technological change 442
Summary and conclusions 443
Questions and exercises 444
Notes 445
References 447

PART 4

Problems and issues

449

14 Transnational corporations and economic development

451

Introduction 451
Import substitution industrialization and the TNCs 452
The globally integrated production system 455
Foreign direct investment 459
Who in the less-developed countries gains from FDI? 461
Capital formation 464
Potential costs of TNCs to a host country 469
Weak linkages, thin globalization 471
Export promotion and the fallacy of composition 474
Long-term costs of TNCs: the potential for environmental degradation 475
Export processing zones and the problems of small nations 475

<i>Vertically integrated TNCs and development prospects</i>	480
<i>Bargaining with the TNCs</i>	482
<i>FDI in Asia and Latin America</i>	484
<i>Summary and conclusions</i>	487
<i>Questions and exercises</i>	488
<i>Notes</i>	488
<i>References</i>	489

15 Macroeconomic equilibrium: the external balance 491

<i>Introduction</i>	491
<i>The balance of payments</i>	492
<i>The current account: foreign exchange earnings and spending</i>	493
<i>The capital and financial account: foreign exchange borrowing and lending</i>	497
<i>Net errors and omissions</i>	501
<i>What does it mean to say that a country has a balance of payments problem?</i>	502
<i>Exchange rates</i>	503
<i>Types of exchange rate regimes</i>	504
<i>Real versus nominal exchange rates</i>	512
<i>Exchange rates and the balance of payments</i>	515
<i>Currency overvaluation and the possible impact on the balance of payments</i>	517
<i>“Good” external imbalances</i>	520
<i>Summary and conclusions: monitoring the external balances</i>	522
<i>Questions and exercises</i>	524
<i>Notes</i>	527
<i>References</i>	528

16 The debt problem and development 529

<i>Introduction</i>	529
<i>Origins of the 1970s–1980s external debt dilemma</i>	530
<i>Petrodollar recycling</i>	531
<i>Dimensions of the debt crisis</i>	533
<i>External borrowing, adjustment policies, and savings</i>	538
<i>The debt service obligation: the real cost of debt repayment</i>	541
<i>The 1980s debt crisis</i>	543
<i>Longer-term efforts to overcome the debt crisis</i>	545
<i>Debt overhang and future economic growth</i>	546
<i>Summary and conclusions</i>	548
<i>Questions and exercises</i>	549
<i>Notes</i>	551
<i>References</i>	553

17 International institutional linkages: the International Monetary Fund, the World Bank, and foreign aid	555
<i>Introduction</i>	555
<i>The IMF</i>	556
<i>Objectives of the IMF</i>	562
<i>Do IMF programs work?</i>	567
<i>The World Bank</i>	570
<i>Critiques of World Bank and IMF SALs</i>	577
<i>Sustainable development, comprehensive development framework, and a knowledge bank?</i>	578
<i>The Poverty Reduction Strategy approach</i>	579
<i>Foreign aid</i>	583
<i>Conclusion</i>	589
<i>Questions and exercises</i>	591
<i>Notes</i>	592
<i>References</i>	593
<i>Index</i>	597
