A Corrigendum on

Therapeutic Potentials of Antiviral Plants Used in Traditional African Medicine With COVID-19 in Focus: A Nigerian Perspective

by Attah A. F., Fagbemi A. A., Olubiyi O., Dada-Adegbola H., Oluwadotun A., Elujoba A. and Babalola C. P. (2021). *Front. Pharmacol.* 12:596855. doi: 10.3389/fphar.2021.596855

In the original article, there was a mistake in **Supplementary Table S1** as published. This table is totally missing; instead, **Figure 7** (chemical structures 13–172) has been replaced here. Meanwhile, this same **Figure 7** has incompletely been presented within the original article where only structures 13–23 appeared within the article without a link or statement directing readers to the remaining structures. The corrected **Supplementary Table S1** appears below.

The authors apologize for this error and state that this does not change the scientific conclusions of the article in any way. The original article has been updated.
