9	A Different Perspective on Tourism and Poverty	129
	All three pathways by which tourism impacts on poverty need consideration	130

	Indirect impacts may be disproportionately pro-poor	132
	Dynamic impacts are critical but poorly understood	133
	The overall share of tourism spending reaching the poor is higher than critics claim	133
	Policy context matters a lot, the type of tourism matters little	134
	Both the size of the sector and pro-poor shares matter	134
	Researchers need to raise their game	134
	In conclusion, a nuanced reality	136
