Contents

Preface	vii
Chapter 1 Basic Nevanlinna theory	1
1.1 The first fundamental theorem	1
1.2 The second fundamental theorem	13
1.3 The characteristic function and the order	26
1.4 The combination of derivatives	36
1.5 Generalizations of the second fundamental theorem	50
1.6 Meromorphic functions with two Picard exceptional values	61
1.7 Combinations of meromorphic functions	70
Chapter 2 Unicity of functions of finite (lower) order	96
2.1 Hadamard's factorization theorem	96
2.2 Unicity of meromorphic functions of order < 1	108
2.3 Functions of finite non-integer (lower) order	113
2.4 Unicity of entire functions with finite (lower) order	124
2.5 Taylor expansions of entire functions with finite order	146
Chapter 3 Five-value, multiple value and uniqueness	156
3.1 Nevanlinna's five-value theorem	156
3.2 Lo Yang's method	171
3.3 Multiple values and uniqueness	179
3.4 Unicity of meromorphic functions of class \mathcal{A}	192
3.5 Some general theorems on multiple value and unicity	202
Chapter 4 The four-value theorem	215
4.1 Nevanlinna's four-value theorem	215
4.2 $3CM + 1IM$ values theorem	224
4.3 $2CM + 2IM$ values theorem	231
4.4 DM theorems for entire functions	248
4.5 4DM theorem	253

Chapter 5	Functions sharing three common values	273
5.1	Nevanlinna's three-value theorem	273
5.2	Deficient values and unicity	281
5.3	Unicity of periodic or even functions	295
5.4	Unicity of solutions of differential equations	300
5.5	The relationship between the characteristics	308
5.6	Möbius transformation	318
Chapter 6	Three-value sets of meromorphic functions	338
6.1	Two-value sets of entire functions	338
6.2	Three-value sets of meromorphic functions	350
Chapter 7	Functions sharing one or two values	364
7.1	Functions sharing two common values	364
7.2	Functions sharing one common value	371
Chapter 8	Functions sharing values with their derivatives	384
8.1	Entire functions	384
8.2	Meromorphic functions	399
Chapter 9	Two functions whose derivatives share values	426
9.1	Derivatives sharing common zeros	426
9.2	Derivatives sharing the value one	436
Chapter 10	Meromorphic functions sharing sets	454
10.1	Meromorphic functions sharing four sets	454
10.2	Meromorphic functions sharing three sets	469
10.3	Meromorphic functions with deficient values	482
10.4	Meromorphic functions sharing one or two sets	492
10.5	Preimage and image sets of entire functions	500
10.6	Unique image sets of meromorphic functions	508
